

NOTICE OF AMENDMENT

Revision of Air Operator Certificate Requirements

Please be informed that the Air Operator Certificate Requirements (AOCR) has been amended. The key changes are in Appendix C1 to clarify the application of flight duty periods (FDP), particularly by cabin crew.

These changes include:

- (a) Clarification that cabin crew will use the same FDP as the flight crew;
- (b) Provision for a cabin crew to report earlier than the flight crew for pre-flight briefing only but not more than 60 minutes, so as to better manage the fatigue of a cabin crew; and
- (c) Adjustment to the requirement for provision of horizontal rest facilities for cabin crew such that it will become applicable when the FDP exceeds 14 hours.

These amendments are incorporated in Issue 3, Revision 31 of the AOCR, which comes into effect on 8 July 2016.

The AOCR can be downloaded at our [CAAS website](#).
